

PEOPLE SYSTEMS FOR FOUNDERS

A 10-minute people audit for founders

Built from four startup people functions

HIRING

Can you explain why every open role exists now?

If the business case is unclear, the job description will be unclear too.

ONBOARDING

Does every new hire know who owns their first 30 days?

Shared responsibility often becomes no responsibility.

PERFORMANCE

Can a struggling employee describe what good looks like?

A warning without a clear standard is only frustration in writing.

RETENTION

Do you know who is at risk before resignation day?

The exit interview is too late to begin listening.

POLICY

Can two managers give the same answer?

Leave, attendance, payroll, and flexibility cannot depend on who gets asked.

**If three answers made you pause,
your risk is already visible.**
